ⓘ Below are **Question 1** explained answers by **CAPS AI** (supervised by Life Orientation Teachers)

1.1.1

A. eliminate unfair discrimination and promote equal opportunities for all.

Explanation: The **Labour Relations Act (LRA)** in South Africa primarily aims to promote fair labor practices, protect workers' rights, and prevent unfair discrimination in the workplace. It ensures that employees are treated equally, have the right to collective bargaining, and are protected from unfair dismissal. While the other options mention aspects of workplace transformation and investment in education, they align more with other labor-related laws like the **Employment Equity Act** and the **Skills Development Act** rather than the core purpose of the LRA.
